Mamdouh El-Boghdady

Director

Lucky Dolphin

One Stop Ship Service Station

Lucky Dolphin Marine Services

Lucky Dolphin Marine Services was established in the late eighties at port of Suez as General Ship supplier & Suez Canal transit agent serving vessels calling Suez Port or transiting the canal. from the beginning we were known for, honesty and reliability which built our high reputation and expanded our client's network world wide and created high growth situation.

Continuous growth and advanced management allowed Lucky Dolphin Marine Services to become one of the market leaders with branch offices In all Egyptian Ports.

"Lucky Dolphin Marine Services" today is one stop ship services station .

Technical Stores

Repair Works

On both banks of Suez Canal we are connected to several large high tech. workshops certified, and capable of handling wide range of maintenance and overhaul operations.

- Main & Auxiliary Engines
- Turbo chargers
- Pumps & compressors
- Electrical motors (*rewinding within 24 hours*)
- Cast materials
- Navigational & Electronics equipments (*maintenance and repair*)
- Underwater repairs digitally monitored, cleaning and inspection works.

We are contracting with floating docks in both ends Northern & southern of the Suez Canal which means that all repairs and maintenance assignment can be carried out close to the shipping route and close to the oil industry.

Having direct access to the Red Sea at the southern entrance of the Suez Canal, docks is perfectly located to offer a wide range of services to international customers and marine operators docks provides professional repair and maintenance within fields of :

- Maintenance of hull and steel structures .
- Surface treatment, grid blasting, tank coating and painting ,
- Maintenance and upgrading of information technology electrical, electronic as well as navigation systems.
- Voyage repairs and machine inspections .

Floating dock has a lifting capacity of 55.000 tonnes and is second to none in this part of the world. Heavy sections can also be handled without problems by the gantry crane with a lifting capacity of 250 tonnes, With a lift period of less than 2 hours with a full load of 55.000 tonnes, operations can be initiated with limited loss of up-time.

The 302 meter long and 56 meter wide pontoon deck ensures outstanding docking capacity.

Spare Parts Supply

As we are connected and daily updated with what's available in the ship breakers we select the used or unused parts based on quality and standard conditions that enable us to source your spare parts needs no matter from which maker @ the right time @ the best prices.

Spare Parts Parcels Custom Clearance

Our offices at air & Sea Ports do all necessary to clear your Parcels upon arrival and deliver it on board in shortest possible time to reach your vessel at the right time.

Spare Parts Consignment :

We make the most use of our strategic location in the middle of trade shipping route (Suez Canal) to present our clients with a very critical service, holding their spare parts consignment in our tax free warehouse to be delivered or distributed among their vessels frequently calling our Ports.

what Benefits to the technical Managers ?

- 1- Saving air freight costs
 - 2- saving expenses/Time of custom clearance duplication
 - 3- fulfill vessels requirements in time by avoiding any possibility for not reaching vessel at the right time.
- instead of individual air freighted shipments of spare parts to each vessel, a consignment can be shipped by sea freight as bulk, to be delivered when and where they are required.
